

### ABOUT YUN HUANG

Yun joined RDA in June of 2018 after earning her Master of Landscape Architecture from the University of Illinois at Urbana-Champaign.

Yun is working towards her professional Landscape Architecture licenses in both New York and California. Her participation on numerous projects has provided her with multiple layers of experience in this pursuit.

Yun gained an interest in ecology throughout her schooling which led her to study and research in hydrology, stormwater management, and GIS. She worked as research assistant to analyze the impact of urbanization on eco-system in UIUC. This stimulate her passion on the ecology aspects of Landscape Architecture and a desire help enhance the quality of life in our communities.

As an amateur painter, Yun has a great love of art and nature and loves to travel to new and interesting places.
